Dear Sir/Madam

Objection to Change MM55 to the City Plan 2040

I wish to object to this seemingly eleventh hour amendment to this policy. It potentially opens a loophole for all sorts of undesirable tall developments across the City and outside the defined tall buildings area as designated by the Mayor.

The impact of this change will be wide-ranging in allowing tall "sky scraper" buildings around the city, potentially unwittingly. Such loopholes should not be allowed to appear, as the consequences could be devastating to the City's skyline.

Rather the efforts of the City should be ensure there are NO potential loopholes, ensuring proper oversight and control over future developments.

This change should not be permitted.
