I am writing to express my extreme concern as a Resident of the City to the proposed change MM55 to the City Plan and wish to register my strong objection.

When the Barbican was Listed we were assured that this would have the effect of protecting the surrounding area particularly from high rise buildings.

I would hope that quality of life is a major consideration for City residents, something that would be detrimentally affected by more tall buildings. The incidence of wind tunnels, reduced light etc must surely be some of the negative results of more over height buildings. Has the effect of a fire/terrorist attack been considered?
