

St Andrew Undershaft Churchyard

Design proposal: Illustrative Plan

Lower Level:

- 1 • Curved perimeter raised planting bed
- Timber backed bench (capacity: 3)
- Individual backed chairs (capacity: 2)

Level Change:

- 2 • Sloping threshold stone to entrance
- 3 • Wide flight of 4 steps (3.8m in width) with peripheral handrails
- 4 • One step down to kitchen

Upper Level:

- 5 • Upper churchyard establishes **one step-free platform**
- 6 • Ledgerstones carefully lifted and relocated
- 7 • Timber backed benches located on new York stone paving strip to allow secure fixing away from ledgerstones (capacity: 7)
- 8 • Linear downpipe diversion potential for SUDS planter installed besides Church facade
- 9 • Timber backed seating integrated into SUDS planter (capacity: 6)

Feature Planting:

- 10 • Multi-stemmed small tree in raised box planter
- 11 • Northern ground level planting bed introduced
- 12 • Perimeter climbing plants to railings
- 13 • Shade tolerant planting to SUDS bed

Overall formal seating capacity: 18
